

What our customers say

Doodle is not only proven to raise children's confidence and ability in maths and English, it also saves time for teachers and empowers parents to get involved with their child's learning. Take a look at what our customers say about Doodle below.

Teachers

“

“When putting together a strategy for home learning, we realised that for maths and English all we needed was Doodle!”

— CEO, Learners' Trust

“DoodleMaths has made our remote learning provision so much richer [for children] and less stressful for us as teachers, knowing that every child has access to an individual programme of learning across numeracy and literacy. The children are benefiting daily!”

— Julie, Teacher at Carrick Primary School

“I have to say it's been absolutely brilliant during lockdown as a remote learning resource. I would argue it's been the most successful home learning resource for our school in terms of a week-on-week increase in pupil engagement.”

— J Gibbins, Teacher at Addington School

“Given that we introduced DoodleMaths at the start of lockdown, with no in-school guidance and support, it has been phenomenally successful. Feedback from parents is just as positive as the children's. So a very big thank you from us!”

— Jane Woolley, Assistant Headteacher, Earlham Primary School

“DoodleMaths has proven to be even more incredible during this difficult time. Please can I pass on my thanks to you and your amazing team.”

— Aled Williams, Deputy Headmaster, Albert Primary School

“DoodleMaths allows students to work independently and take control of their learning. We have also found the Doodle team to be positive, approachable and highly responsive to feedback.”

— Jehanzeb Navid, Tewkesbury C of E Primary School

“I can’t recommend the Doodle programmes enough! Since using DoodleMaths, Kayleigh has grown in self confidence so much and [it] has definitely helped her on her journey to catch up to where she should be.”

— Katharine, Parent

“DoodleMaths has been amazing for my SEN child in Year 3 who is working at Reception level. It’s interactive and has boosted his confidence!”

— Nicola, Parent

“George’s ability and confidence with maths has increased dramatically and he is definitely enjoying maths more! A big thank you to Doodle – we would not have survived homeschooling without you!”

— Ria, Parent

“DoodleMaths and DoodleEnglish have helped our children learn pre and post-COVID lockdown. The apps are sturdy and almost bulletproof. Their costs are a small price to pay for such good academia services.”

— Paul, Parent

“My son is now on a 171 day streak and his confidence and knowledge have improved greatly. The questions are varied and just 5/10 minutes a day – the results have even been commented on by his teacher.”

— App Store 5 star review

Parents

Children

“The help is so much better [than their current programme]. It gives me a really good explanation, the hint is so helpful and I can even save it to tricky questions so you know what I can’t do. I feel like I can work by myself and I don’t need to always ask a teacher for help.”

— Child user

“Ever since I started this app my learning skills have got much better. This app makes learning really fun at the same time as learning. It is really fun trying to keep my streak going and staying in the green zone all the time.”

— Child user

“Hello DoodleMaths team, I think your app is great as I am sharing it with my friends and family in quarantine! Your app inspires lots of young and old learners to do their homework.”

— Child user
