

Remainders Worksheet

Name:

Date:

Remainders can be expressed as fractions or decimals

①

A teacher decides to hand out stickers to her students. There are 134 stickers in total, and 20 students. If each student gets the same amount of stickers, how many stickers does each student get, and how many are leftover?

②

Calculate the value of the remainder with a dividend of 147, a divisor of 13, and a quotient of 11.

③

What is the remainder when 245 is divided by 12?

④

Find the remainder when 54 is divided by 3

5

Jasmine has \$63. She decides to divide it among her 5 friends, giving an equal amount to each. How much money does each friend get and how much is left over?

6

Find the remainder when 89 is divided by 7.

7

Calculate the remainder when the dividend is 566, the divisor is 23, and the quotient is 24.

8

Find the remainder when 119 is divided by 10.
